THE STORY

It is the third film of the Power Rangers film franchise, and is a reboot that features the main characters of the original Power Rangers television series. It is the first blockbuster film to feature LGBTQ and autistic superheroes.

A group of warriors on prehistoric Earth, the Power Rangers, were tasked with protecting life on Earth and the Zeo Crystal. However, the Green Ranger, Rita Repulsa, betrayed them. The Red Ranger, Zordon, takes the Rangers' power source, the Power Coins, and hides them, while ordering his assistant Alpha 5 to perform a meteor strike that kills Zordon, sends Rita to the bottom of the sea, and destroys the dinosaurs.

In modern Angel Grove; five teenagers discover the Power Coins. While escaping from the police, their car is hit by a train and the five find themselves at home the next day, and discover they have been granted superhuman abilities. Elsewhere, Rita Repulsa's body is found. Upon awakening, she goes on a rampage, taking every piece of gold that she can find in order to raise her minion Goldar to find the Zeo Crystal....

OUR REVIEW

Five teenagers discover the Ranger Power Coins deep within a mine. The power of these coloured coins transforms them from outcasts to superheroes overnight. However, with power comes responsibility... The young warriors are assigned the task of saving mankind by defending Earth's Zeo Crystal from a former Green Ranger gone rogue.

Power Rangers is an upgraded installment that predominantly caters to the kids. Sadly, it is a bit unexciting and dated to attract or inspire the youngsters. Even diehard fans of the series may find the film underwhelming. I was making tall promises and leading on to believe something huge is in store.

The result is a film about Young Heroes who battle giant monsters with robot dinosaurs in which an hour and 34 minutes pass before those Heroes actually get into their Hero costumes and fight Rita Repulsa (a 65-million-year-old former Green Ranger who has gone rogue. She formed (during the film) the monster Goldar while (at the same time) was attempting to steal the Zeo Crystal, an artifact that channels the Morphing Grid dimension and also gives the Power Rangers their powers....
